Dear Professor Lederberg:

In the course of my work with Harvey Brooks in discussing the need for assessment of technology I wrote the attached brief paper on trace element contamination of the environment which I believe is the one in which you expressed an interest. This was done quickly and is not very complete. You are certainly welcome to have it.

Sincerely yours,

E. Creutz

Thank you - it is a pleasure
to read a breezy and factual and
thoughtful account like this!

I don't remember whether I
already sent you the enclosed stuff. No matter.
Here they are. I. Leub.
